Burundi Charges Plotting by CIA

LEOPOLDVILLE, Congo, June 24 (AP) — A spokesman for the Burundi Embassy charged today that the United States was responsible for a recent plot against the Burundi government.

In a speech broadcast Wednesday, the Burundi Foreign Minister referred to accomplices outside the country working with elements of the opposition in Burundi, a former Belgian trusteeship territory between the Congo and Tanzania.

The Embassy spokesman said the foreigners referred to by the Foreign Minister could only be Americans, specifically the Central Intelligence Agency.
